

FIRE-BULL®

Fire Protection

CUSTOMISED SAFETY DISPLAY STANDS

BULL Products® are pleased to launch the new all in one safety display stand.

This new concept has been designed to have site safety notices and welfare equipment displayed for all the workforce around a construction site.

Its uses extend into the industrial sector around factories or warehouses.

There are endless designs and configurations but Bull® can work with their customers to fulfil all their requirements.

Each section is fully stand alone but can also be joined using brackets.

- Totally customised designs
- Also available as wheeled units for easy manoeuvring
- Extremely durable powder coated steel frame
- Extinguishers can be fixed to the stand with brackets
- Display all site notices and information in A3/A4 snapframes
- Have your company name logo printed on fire alarms
- Can be either stand alone or can be radio linked, cable linked to other fire points
- Other equipment is available eg: first aid kits, reporting/ suggestion boxes, ipod stations, spill kits, waterproof extinguisher cabinets, fire blankets, rotary alarm bells, waterproof snapframes, all types & sizes of Fire-Bull® extinguishers, coverall dispensers etc.
- Extra stands can be designed so as to complete a cubed or triangular point
